## **Drill on! U.S. Energy begins drilling on a 57 well project in Southern New York**

*U.S. Energy announced today that drilling activities are underway on a project that includes 57 natural gas wells in Southern New York State. Over the last couple months, U.S. Energy has been proactively installing new infrastructure in which includes the installation of new meter sites and a significant natural gas gathering system of more than 9 miles of new pipeline.*

*For the past several years, U.S. Energy has been ranked among the Top 50 Independent Oil & Natural Gas Drillers in the United States. From 1980 to present, U.S. Energy has acted as operator with respect to the drilling of more than 2,500 wells. The company currently has significant operations throughout 8 states and Canada.*
